### **BRIEF DESCRIPTION OF ATTRACTION**

The adventure begins with a decent in an elevator down 70 metres, then walk along a 1000 ft. long boardwalk which runs alongside the river with stairs that lead to two observation areas at the edge of the river. The Whirlpool Rapids consist of four kilometers of three to five metre standing waves, making this stretch of whitewater the largest/finest series of standing waves in North America. This site also provides visitors with an excellent view of the 410-million-year-old rock layers of the Niagara Gorge.
