**DESCRIPTION OF EDUCATIONAL PROGRAMS**

This cruise of the Toronto harbour and islands gives you the chance to enjoy scenic views of the Toronto skyline, learn the history of the area, and explore the Toronto islands. Your captain will start the tour by taking you to view the Western harbour before crossing into the lagoons to visit the Toronto islands. Sites featured on this part of the tour include the historic Hanlan's Point, the Island Yacht Club, and the woodlands of the Island Bird and Wildlife Sanctuary. The captain and crew will provide an entertaining and information narration to detail everything you see, highlighting the unique historical significance of the Toronto waterfront and islands.

During the summer months, the tour makes a brief stop at an island dock where passengers can disembark to explore the islands at your leisure. When you are done exploring the islands, simply come back to the dock and wait for the next ship to continue your tour. With the second half the the tour, we return to the Toronto harbour where the crew will tell you about the many notable buildings that make up the ever changing skyline while we cruise along for you to find the perfect place to photograph Toronto from the water.
