ATTRACTION DESCRIPTION

An epic experience! Come defy the law of gravity at iFLY Toronto. Enjoy freefalling in a safe environment: Solo, with a group or with your family and friends.

It's an opportunity to experience the sensation of free-fall. Imagine a 14-foot cylindrical diameter vertical tube that is 45 feet tall in which the airstream is passing at a speed of 175 km per hour. Once inside the wind tunnel, you will have a real sense of what skydivers experience during the free-fall portion of their jump, which is generally done from 13,500 to 3,500 feet of altitude at a speed of 200 km per hour. All of that in an environment that is so secure that it is even accessible to children aged of 4 years and older.

TORONTO

DESCRIPTION OF EVENING ACTIVITY

Package Summary:

The first time flyer introductory experience will take a minimum of 2 - 2.5 hours to complete, the total activity time depends on the size of your group. Each flight experience follows this process:

- 15 minutes to sign waivers and observation period (note students under 18 years of age will be required to provide pre-completed waivers and a copy of their parent or guardian's photo ID)
- 30 minutes of classroom training
- 15 minutes gearing up
- 30 minutes inside the flight chamber
- 15 minutes to remove gear and debrief with the instructor

The Flight Chamber runs at 30 minute intervals and we start each session on the hour and half-hour mark.

Each flight is 60 seconds in length; equivalent to the free-fall portion of a skydive.

Group sizes:

If everyone is flying 2 flights each, our maximum group size in each flight chamber session is 12 people. If everyone is flying 4 flights each, our maximum group size in each flight chamber session becomes 6 people.

For larger group sizes:

If you are scheduling for a larger group, say 20+ people, we would break everyone up into smaller sessions. For your scheduling purposes, just add an additional 30 minutes to the 2 - 2.5 hour overall run time for each additional session.

Safety Requirements:

- If you have ever dislocated a shoulder or have a history of heart, neck or back problems please contact us prior to booking.

TORONTO

- If your weight exceeds 230 lbs (104 kg), please contact us prior to booking.
- You are not pregnant.
- You are not under the influence of alcohol.
- You are not wearing a cast.
- If you are under 18 years of age, you are accompanied by your parent or guardian so that they can complete a Participant Undertaking and Risk Acceptance Statement.

Answering **yes** to these questions does not immediately exclude someone from participating; our goal is to ensure the client's safety and these questions allow us to do that.

If someone in your group has a medical question, please ask them to contact us (289-795-4000) and we can advise accordingly, as each person's case is different.

230+ Package Please note that if anyone in the group is over the weight of 230 pounds they will need to do our 230+ package which is \$260 per person including tax. This includes 10 flights and a coach for the flyer.

What to wear: On the day of your flight, it is very important to wear comfortable and casual clothes.

You should have with you:

- T-shirt
- Sport pants or shorts
- Socks
- Running shoes

* Make sure to bring a government issued id card with you.

We recommend you wear a shirt that has a round collar (t-shirts are great) since the ones with polo collars make the air around your neck vibrate and can make your experience less pleasant. We will provide you with a flight suit that you will wear on top of your clothes. We also ask you to remove all jewellery and to empty your pockets. Furthermore, we recommend that all people with long hair to have a hair elastic and to bring a hair brush.
