ATTRACTION DESCRIPTION

Let's talk about Reptilia Zoo: Reptilia is a state of the art 25,000 square foot CAZA-accredited facility complete with large exhibits showcasing hundreds of different reptiles and amphibians. Watch our Cast at work in the lab, our food preparation area, and the venomous workshop! Each day there are a variety of opportunities to interact with our animals and learn from our exceptional Cast Members during our shows, tours and animal feedings!

Visit our star attractions page to get a glimpse at just a small number of the cool creatures you will meet when you visit us!

With four reptile feedings every day, free live theatre shows or zoo keeper tours and a chance to interact with the reptiles and the Zoo Cast, Reptilia is a destination worth visiting. Reptilia's zoo is the first of its kind and it adds another destination to Vaughan's already growing list of attractions.

DESCRIPTION OF EVENING ACTIVITY

Bring your curriculum to Life! The Reptilia Education Program is dedicated to providing a real connection for students between the Ontario Science Curriculum and the world around them, fostering a sense of responsibility, and understanding, empowering the students to grasp critical concepts and formulate their own questions.

Reptilia provides an educational experience that is tightly linked to the Ontario curriculum. Our educational presentations employ exciting and intriguing creatures to captivate the students as well as to introduce and reinforce the concepts they are learning in class, prompting students to ask their own questions and apply what they have learned to the world around them. Through interaction with living Reptiles, Reptilia lessons not only provide a concrete application of abstract concepts, but they also encourage a greater understanding of how we, as human beings, fit into the big picture.
