**BRIEF DESCRIPTION OF ATTRACTION**

Operating from April-October, each of our parks offer climbers an opportunity to ascend to new heights and sights in a series of courses ranging in difficulty from beginner to even expert levels! Navigating their way through aerial games, moving from tree to tree, guests work their way across games consisting of cables, log bridges, swings and nets (to name a few!). Customers can experience the joy of leaping and soaring through the forest just like the local birds and animals they will find themselves alongside! Whether you are looking to get out and explore the beauty of Ontario's forests in an exciting new way, interested in challenging yourself, overcoming fears or are seeking a jam-packed day of fun, Treetop Trekking has the experience for you!

**DESCRIPTION OF EDUCATIONAL PROGRAMS**

In addition to the educational benefits of participating in an aerial game or ziplining trek, our parks also offer team building programs, and GPS ralleys. These can be done alongside a tree adventure of on it's own. Team Building activities include a series of games and activities that will help any group learn to work together, increase their communication skills and gain valuable problem solving skills. Our GPS challenge is a like a treasure hunt in the woods! Groups are split into teams and giving a hand-held GPS device with pre-programmed way-points. Teams navigate their ways through the park looking for various riddles and puzzles to be solved. This is another great way to educate about leadership, communication, teamwork, and problem solving skills...all while having a blast!
